# Advanced Concepts in Plastic Surgery

Experienced, personalized care for beautiful results • SURESH KONERU, MD

## Happy Halloween

I just got back from the American Society of Plastic Surgeons meeting last night. I thought I could keep the skull theme going for 2 months so here is a photo from the site of the welcoming reception. Try guessing where it was before clicking on the photo. The meeting is the largest gathering of Plastic Surgeons in the world and is a great place to meet old friends, learn what's new in Plastic Surgery, and get some new ideas. I'll be updating you next month of some of the new and interesting things from the meeting. Keep an eye on your Inbox for the interesting scoop!

Today marks the end of Breast Cancer Awareness Month. This was the first year that we celebrated Breast Reconstruction Awareness Day and I hope all of our Breast Reconstruction patients received their gift copy of Jewel's new song Flower. If not please send us an [email](#) with your iTunes or Amazon ID and we will process it. You can see a nice infographic from the American Society of Plastic Surgeons on my Pinterest page [here](#).

In November we're having another event, be sure to scroll down and get all the info. Join us on Wednesday November 14th for a Cool Night Out. Bring a friend and come enjoy drinks, appetizers, a demonstration of the [CoolSculpting](#) machine, door prizes, and discounts. Our last event was a big hit and was standing room only, so [RSVP](#) early to save your spot. As an added bonus on this night only, book a [CoolSculpting treatment](#) and get 20 units of Botox FREE!

This month we installed the new upgrade to the [Ulthera system](#). The decrease in the pain is INCREDIBLE! The first patient we treated reported the discomfort was about a 4 out of 10. The next patient we treated had been treated before and she thought the pain was only a 1 out of 10. This is a dramatic improvement on one of the only problems with the Ulthera. Now that the pain is not an issue, there is really no reason for anyone between 30 and 60 years old not to have a treatment every 2 years to keep their face lifted and tight. With consistent treatment, we should be able to hold off the need for a facelift and help keep the skin looking refreshed.

# IS COOLSCULPTING® ON YOUR HOLIDAY WISH LIST?

BEFORE

16 WEEKS AFTER  
COOLSCULPTING

Procedure by Michael S. Kaminer, MD

Treat yourself to something **cool** this holiday season.  
Now you can transform yourself without diet, exercise or surgery.

CoolSculpting is the only non-surgical body contouring treatment that **freezes and eliminates fat** from your body. There are no needles, no special diets and no downtime. It's FDA-cleared, safe and proven effective.

Results and patient experience may vary. Ask us for more information.

In the U.S., CoolSculpting for non-invasive fat reduction is cleared for the flank and abdomen.

CoolSculpting is a registered trademark and the CoolSculpting logo and the Snowflake design are trademarks of ZELTIQ Aesthetics, Inc. © 2012. All rights reserved. IC1212-A
